Description

Castor oil contains an extremely high amount of the rare and unusual fatty acid called ricinoleic acid. Ricinoleic acid is in general highly beneficial. It has anti-bacterial properties that protect the scalp and hair from infections that can cause hair loss. Castor oil also nourishes the hair and prevents the scalp from drying. Rubbing castor oil on your scalp and the roots of your hair will regenerate faster and new hair growth within months. It is also very effective to thicken thinning hair.

Use
First do an allergy test by putting a liitle amount of oil behind the ear and see if any irritation occurs in the next 48 hours.
Apply for a period of 3-4 weeks before going to sleep carefully on the eyelashes with a cotton bud or former mascara brush. This prevents thinning and promotes rapid growth, leading to thicker and fuller lashes.
Use a small amount of castor oil as hair mask on your scalp and the roots of your hair to regenerate new hair growth and thicken thinning hair.

our products are cruelty-free, chemical-free, no parabens, no allergens, no animal testing
Disclaimer
Natural cosmetics is a big space, you can't enjoy it in a day/week. Please read the "user manual before, after" on bottom of the package. We suggest you to use the product within the dates, so that the best results are more effective.
